#THEFORGOTTENSOLUTION

Dear Rusty,

John Denver called it "almost heaven" and I think he was right! Am walking around the Monongahela National Forest in the USA humming 'Country road, take me home, to the place I belong...?'

Now I understand why people write songs about this place! It's amazing to see how different groups are working together to reforest the area with red spruce trees. And, whoa, it's even more amazing to think these West Virginian landscapes could remove the equivalent CO_2 of 5.2 million cars every year once the project is done. Don't y'all just love reforestation and natural climate solutions?

Love Woody
